

# Remake Crafts: Paper Circle Ball

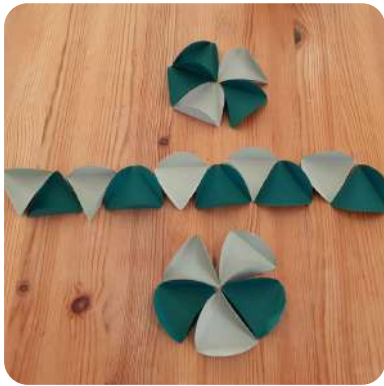

**1:** Make paper or card balls to hang as decorations. You can make several to form a mobile.

**2:** Materials: 20 x 10cm circles (10 of each colour). 1 x triangle folding guide. Glue or needle & thread. Paperclips

**3:** Take your triangle and place it in the middle of your circle. Fold up the edges as show. Do for all circles.

**4:** Arrange your circles into 2 groups of 5 and one group of 10. You can draw designs on the card circles now if you like

**5:** Glue the edges to join the 5 circles into the top of the ball as shown. Do the same for the base.

**6:** Glue a long line of the 10 circles as shown and join the two ends together. This will form the middle of the ball.

**7:** Then glue the middle section to the top of the ball. And then the bottom to the middle section

**8:** You can use a paperclip as the glue dries. If you don't have glue you can sew the joins together. Make a hole with your needle in a joint to hang the thread.

**9:** You can make these balls any size by using a tub or lid as a circle temple to draw round. You can decorate & colour the sides.
